Rules for NA62 Authorship (Proposed on April 2014)

- Two out of the following four conditions:
  –Significant contribution to hardware, firmware or software employed in data taking
  –Active participation to the data taking
  –Important service tasks
  –Impact on data preparation or analysis

- Authors are proposed by the Team Leaders to the Spokesperson. The Spokesperson takes into account the requests, verifies the eligibility and presents the proposed list of authors to the SC for endorsement
